Wallmount standard patchpanels

Fibrain standard wallmount patchpanels are available in 3 dimension versions facilitating installation of different connections number.

Simple construction, possible installation of commutation filed for different adapters types, allocated space for splices makes this product family very popular for internal applications.

Features:

- Simple construction,
- 3 sizes regarding to installation needs,
- Commutation fields for majority of common connectors types,
- Colour RAL 7035.

Features:

- CATV,
- Telecom systems,
- FTTH systems,
- LAN,
- Municipal networks Metro,
- Industry and medicine.

Technical parameters: Patchpanel - small version ref. FB1401

Reference:	FB2101	FB2102	FB2103
Connectors:	4xSC duplex	8xST/FC simplex	8xSC duplex
Dimensions(mm):	150x265x55		
Color (RAL):	7035		
Connector type:	SC, LC, ST, E2000, FC		

Technical parameters: Patchpanel - medium version ref. FB1402

Reference:	FB2106	FB2104	FB2106	FB2105
Connectors:	24xSC simplex	12xSC duplex	24xST simplex	12xST simplex
Dimensions(mm):	285x325x55			
Color (RAL):	7035			
Connector type:	SC, LC, ST, E2000, FC			

Technical parameters: Patchpanel - large version ref. FB1403

Reference:	FB2108	FB2109	FB2110	FB2111	FB2112
Connectors:	24xSC dx	24xSC sx	24xST/FC sx	48xST/FC sx	48xSC dx
Dimensions(mm):	445x445x100				
Color (RAL):	7035				
Connector type:	SC, LC, ST, E2000, FC				

Other components:

	Reference
12 splices cassette:	FB7401
ST seal:	FB7420
SC simplex seal:	FB7421
SC duplex seal:	FB7422
PG cable gland (13,5 mm):	FB7430
M2x8 screws set for adapters installation SC, LC, E2000:	FB7431
